

The Winter Gas Supply/Demand Crunch

A one day winter briefing for Analysts, Gas Buyers, Traders and Consultants

Tuesday 31st January 2006

Institute of Directors, Pall Mall, London

With forecasters suggesting a 65% probability of a severe winter in North West Europe, the European and especially the British gas market, is likely to experience commercial and operational pressures that have not been seen for a number of years.

Using a combination of presentations, case studies and interactive sessions, this briefing will provide an up-to-date coverage of:

- The Forecast/Supply Demand Match: An update on this winter's demand forecast
- What would happen in an emergency? Emergency actions and the Aftermath
- The use of demand-side management: Optimising the Value of Your Gas Supply Contract
- Key factors in gas prices this winter: The Impact of Oil Price Indexation and the Interconnector
- Within Day Trading and Balancing: Prices and Trading
- The Role of LNG – Miracle or Mirage?
